### **Forward-Looking Statements**

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical facts, included in this release that address activities, events or developments that we expect, believe or anticipate will or may occur in the future, are forward-looking statements. Forward-looking statements are not guarantees of future performance and we caution you not to place undue reliance on such statements. Forward-looking statements are generally identifiable by the use of the words "may," "will," "should," "expect," "anticipate," "estimate," "believe," "intend," "project," "continue," or the negative of these words, or other similar words or terms. The forward-looking statements included in this release are made as of the date hereof. Except as required by law, we assume no obligation to publicly update any forward-looking statement, even if new information becomes available in the future. Actual results may differ materially from those expected because of various risks and uncertainties, many of which are beyond our control. You should review our filings with the SEC, including the section titled "Risk Factors" contained in our Annual Report on Form 10-K filed with the SEC on March 17, 2016.

Furthermore, we have not yet filed the Company's Form 10-Q Quarterly Report for the quarter ended September 30, 2016, with the SEC. When the Company ultimately files such report with the SEC, actual results and financial information related to the quarter ended September 30, 2016, could differ materially from those reflected in the forward-looking statements contained herein as a result of a variety of factors, many of which are beyond the Company's control. The Company assumes no responsibility to update or revise any forward-looking statements as a result of new information or future developments.

#### **Definitions of Non-GAAP Financial Measures and Operating Metrics**

We have included certain non-GAAP financial measures in this press release including Adjusted EBITDA. We believe that these non-GAAP measures enhance an investor's understanding of our financial performance. We believe that these non-GAAP measures are useful financial metrics to assess our operating performance from period to period by excluding certain items that we believe are not representative of our core business. We believe that these non-GAAP measures provide investors with useful information for assessing the comparability between periods of our ability to generate cash from operations sufficient to pay taxes, to service debt and to undertake capital expenditures. We use these non-GAAP measures for business planning purposes and in measuring our performance relative to that of our competitors. We believe these non-GAAP measures are measures commonly used by investors to evaluate our performance and that of our competitors.

Adjusted EBITDA is defined by WOW! as net income (loss) before net interest expense, income taxes, depreciation and amortization (including impairments), gains (losses) realized and unrealized on derivative instruments, management fees to related parties, the write-up or write-off/disposal of any asset, debt modification expenses, loss on extinguishment of debt, integration and restructuring expenses and all non-cash charges and expenses (including equity based compensation expense) and certain other income and expenses, as further defined in our credit facilities. Adjusted EBITDA is not a presentation made in accordance with generally accepted accounting principles in the United States of America ("GAAP") and our use of the term Adjusted EBITDA varies from others in our industry. Adjusted EBITDA should not be considered as an alternative to net income (loss), operating income or any other performance measures derived in accordance with GAAP as measures of operating performance or operating cash flows, or as measures of liquidity.

Adjusted EBITDA has important limitations as an analytical tool and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. For example, Adjusted EBITDA:

- excludes certain tax payments that may represent a reduction in cash available to us;
- does not reflect any cash capital expenditure requirements for the assets being depreciated and amortized that may have to be replaced in the future;
- does not reflect changes in, or cash requirements for, our working capital needs; and
- does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments on our debt.

In addition, we use the following operating and customer metrics in this release:

- Homes Passed — We report homes passed as the number of residential units, such as single residence homes, apartments and condominium units, passed by our broadband network and listed in our database excluding those we believe are covered by exclusive arrangements with other providers of competing services.
- Total Customers and RGUs — Because we deliver multiple services to our customers, we report the total number of customers (“Total Customers”) as those who subscribe to at least one of our high-speed data (“HSD”), video (“Video”) or telephony (“Telephony”) services without regard to which or how many of those services they subscribe. We report Video subscribers as the number of basic cable subscribers and do not include customers who only subscribe to HSD or Telephony services in this total. Each of the individual Video, HSD and Telephony subscribers is referred to as a Revenue Generating Unit (“RGU”).

Subscriber information for acquired entities is preliminary and subject to adjustment until we have completed our review of such information and determined that it is presented in accordance with our policies.

### **Unaudited Reconciliations of GAAP Measures to Non-GAAP Measures**
